EXPERIENCE

Frontend Developer (Full-time)

Since January 2021 AFEX Abuja, Federal Capital Territory, Nigeria

- Attended design meetings and brainstorming sessions to come up with solid architecture and design for new and existing products.
- Worked with backend apis and figma designs to implement Africa exchange, the company's trading platform.
- Participated in daily scrum meetings, review and retrospective sessions.
- Implemented integration and e2e testing on the company's payment platform.
- Worked on system optimizations, re-engineered and designed components based on business requirements.
- Integrated measures to improve system security against attacks.
- Participated in interview sessions to hire new frontend developers.

Senior Frontend Engineer (Contract)

From April 2024 to December 2024 Helpa Remote

- Collaborated with a backend engineer, product designer and the management team to build two versions of the company's user and admin healthcare platforms.
- Developed the system to accommodate varying flows for four different user types.
- Built a mini web page setup module for NGO users with the ability to choose a page theme and other custom web features.
- Worked on improving SEO for the platform to increase visibility.
- Crafted a secure and efficient donation flow to accommodate donation with different currencies and different third-party payment gateways.
- Implemented a flexible and reliable authentication flow with Next.js middleware to manage user roles and activities.

Frontend Developer (Contract)

From January 2023 to February 2023 Volomn Nigeria

- Updated the design and architecture of the web platform's home page.
- Built and queried data from strapi to build the blogs page.
- Developed the "for talents" page on the platform based on figma design.

Integration and Test Engineer (Contract)

March 2022 Klasha Remote

- Worked with the provided documents, designs and API keys to develop and test a checkout page and then make a documentation.

EDUCATION

BSc Applied Geophysics

From September 2015 to August 2020 University of Ilorin Ilorin, Nigeria
